About Skyline Hospital:

Skyline Hospital is a progressive rural critical access hospital with 25 licensed beds, dedicated to providing exceptional and personalized patient care. A broad range of inpatient and outpatient services are provided. Inpatient services include acute care and a very successful transitional care program. The hospital has a well-established specialty care clinic and is now adding a primary care component. Hospital services are supported by high quality hospitalists and emergency department physicians.

Skyline Hospital's service area includes over 20,000 year round residents, with a growing population.

About White Salmon, WA/Columbia River Gorge:

The local communities support a healthy, family oriented environment with excellent schools. Local businesses include a vibrant and growing high tech industry sector. The Columbia Gorge Wine Region is nationally known for its high quality wineries and vineyards. Located along the Columbia River, just 60 minutes from Portland, OR, White Salmon sits in the middle of the Columbia River Gorge National Scenic Area between Mt. Hood and Mt. Adams. White Salmon offers the perfect blend of beautiful scenery and close proximity to all the Pacific Northwest has to offer. A mecca for those who love the outdoors, White Salmon and the local area provides numerous year round activities

such as cycling, hiking, wine tasting, kiteboarding, windsurfing, skiing, standup paddle boarding, fishing and kayaking.

The local communities support a healthy, family oriented environment with excellent schools. Local businesses include a vibrant and growing high tech industry sector. The Columbia Gorge Wine Region is nationally known for its high quality wineries and vineyards.
